In 2015, Ottawa residents approved a one cent sales tax - a half cent for economic development and a half cent for core services, like police and fire - without placing all of the costs for these services on our property taxes. That one cent sales tax is set to expire in 2026.

8. Right now, the one cent sales tax holds down property taxes on our homes and businesses by about 30% (a 13.87 mill reduction, which is \$2.02 million in reduced property taxes). Knowing this, would you be more or less likely to support continuing the one cent sales tax?

- ☐ More likely to support
- ☐ Less likely to support
- ☐ Makes no difference

9. Currently, the one cent sales tax prevents a scenario where Ottawa residents bear all of the costs for services. The sales tax allows the city to spread the cost of services across more people - like visitors and neighbors who live outside the city limits and do not pay city property taxes, but who utilize city streets, parks, police and first responder services. Knowing this, would you be more or less likely to support continuing the one cent sales tax?

- ☐ More likely to support
- ☐ Less likely to support
- ☐ Makes no difference

10. Renewal of the one cent sales tax could be used to make street improvements around town, including maintaining and upgrading streets and making sidewalk, curb, gutter and pothole repairs. If a portion of the sales tax were dedicated to streets, would you be:

- ☐ More likely to support
- ☐ Less likely to support
- ☐ Makes no difference

11. The city pool is nearly 60 years old. Built in 1967, it has served our community well but is past its expected life cycle and continues to require costly repairs. Renewal of the one cent sales tax could be used to replace the city pool with a more cost efficient community pool that has more modern aquatics features. If a portion of the sales tax were dedicated to a new community pool, would you be:

- ☐ More likely to support
- ☐ Less likely to support
- ☐ Makes no difference

12. The city maintains our community parks and walking trails, including Forest Park, Legacy Square, the ballfields, teen park, disc golf course, new fitness court and the new splash park. If a portion of the sales tax were dedicated to maintaining and improving our parks, trails and recreation amenities, would you be:

- ☐ More likely to support
- ☐ Less likely to support
- ☐ Makes no difference

13. Having read how the one cent sales tax has been used and what it could be used for if renewed, if an election were held today, would you vote to keep the one cent sales tax in place?

- ☐ Definitely yes
- ☐ Probably yes
- ☐ Probably no
- ☐ Definitely no
